Class B - Med; Class C - Heavy; Class D - Super

Maximum response time limit = 30 minutes

(d) Number of vehicles.

(e.g., three-axle Kenworth tractor and two-axle 28 foot Great Dane semi-trailer combination).

(e.g., overturned three-axle Kenworth tractor and two-axle 28 foot Great Dane semi-trailer loaded with broccoli).

(5) Shall not request a flatbed/car carrier tow truck, or auto loader, for vehicles which require recovery

(a) Vehicle type and description: is it a car, truck (e.g., half ton, one ton), van (e.g., two-axle box van), or big rig/combination

(b) Condition of the vehicle: is the vehicle upright, on its side, burned, missing wheels, etc.

(c) Location of vehicle: is it on the shoulder, center divider, blocking a lane/off ramp, or down an embankment

(e.g., overturned, down an embankment, or otherwise not upright).

(i.e., how far down the embankment).

1 If the vehicle(s) is an overturned big rig/combination describe damage and/or special recovery/towing requirements

NOTE: An officer should not request a specific class of tow truck (i.e., Class A, Class B, Class C, or Class D)

Shall provide the necessary information to the communications operator:
